

Our Aim

We aim to :-

- Holistically assess the needs of children and families and, together with parents/carers, develop a joint plan of care.
- Reduce or prevent hospital attendances or admissions by providing a skilled paediatric nursing service.
- Enable and empower parents/carers to look after their child in the most suitable environment, by providing support and teaching.
- Act as family advocates and liaise on behalf of children and families with other members of the multi-disciplinary team to ensure a seamless plan of care for the child or young person.
